HORLICK'S THE ORIGINAL MALTED MILK

Made from clean, rich milk with the extract of select malted grain, malted in our own Malt Houses under sanitary conditions. Infants and children thrive on it. Agrees with the weakest stomach of the invalid or the aged. Needs no cooking nor addition of milk.

Nourishes and sustains more than tea, coffee, etc. Should be kept at home or when traveling. A nutritious food-drink may be prepared in a moment. A glassful hot before retiring induces refreshing sleep. Also in lunch tablet form for business men. Substitutes Cost YOU Same Price. Take a Package Home

PURE MILK NEEDED TO INSURE HEALTH

Declares a Cincinnati Doctor in
An Address before Con-
vention in His City.

CINCINNATI, June 9.—In an address before the American Association of Medical Milk Inspectors today, Dr. J. H. Landis, of Cincinnati, discussing "Pure Milk—its Influence on a Municipality's General Health," devoted himself chiefly to presenting facts tending to show that the reduction in the death rate of a municipality brought about by the purification of its milk supply, practically the same as that caused by its change from a polluted to a pure water supply. In Cincinnati, he said, the average yearly saving of lives by compelling a pure milk supply was 453.

"Wholesale assassination of Cincinnati's infant population," he said, had been carried on for years when the milk industry was largely in the hands of dairymen who fed their cows almost exclusively on distillery slop. Cows were chained with their noses in a slop trough from the time they were received in the farm until they passed into the hands of the butcher. The dairy barns were dark and reeking with liquid manure. The cows were plastered with this material, as were many of the workmen, and the finished product had a generous supply when it reached the consuming public. What

had been accomplished in changing these conditions had been chiefly made possible by employing on full time as health officers competent specialists under a non-partisan board of health.

The Cincinnati plan eliminated milk inspection by a physician on part time and placed it in the hands of a graduate in veterinary medicine on full time. R. B. Blume, D. V. S., an employee of the United States bureau of animal industry, was chosen, and to his industry, honesty, and courage the results obtained are largely due.

One of the Cincinnati regulations gives the health officer the authority to dump milk that shows visible sediment in the container. This regulation was rigidly enforced against those who persistently fought all attempts at improvement. Milk permits were revoked, and in numerous instances prosecution in police court drew fines ranging from twenty-five to four hundred dollars. In a few instances, perfectly respectable gentlemen had opportunities in the quiet of the city jail to meditate on the uncertainty of a milk producer's career. Formerly prosecution meant a little temporary, cheap notoriety, with a tinge of martyrdom thrown in; now, if a man is arrested for some other gross violation of the regulations, he loses caste in his community and is classified as a cheap crook or a plain "bonehead."

Compelling proprietors of restaurants, saloons, hotels, etc., to serve milk to customers in the original sealed package met with the unqualified approval of the public.

Opposition to pasteurization was pronounced at first, but at the present time if anyone desired to start a riot backed exclusively by the milk industry, the one sure way would be to try to eliminate pasteurization in Cincinnati. Through pasteurization, the dealers have practically eliminated all waste and have completely escaped outbreaks of milk-borne infection, with attendant loss of trade. In over a year, not one case of typhoid fever, diphtheria, scarlet fever, or septic sore throat has been traced to an infected dairy or to an ice cream manufactory.

No chances were taken on having pasteurization hung up indefinitely in the courts of Ohio. Offences such as selling a warning instead of an irate court. Fines and lawyers' fees constituted an appeal to reason that quickly convinced them of the soundness of the strategy. At present every drop of milk on the Cincinnati market, with the exception of that produced under the supervision of the milk commission of the Academy of Medicine, is pasteurized, and we believe that time will demonstrate that pasteurization will have a marked influence on the incidence of tuberculosis.

In conclusion, Dr. Landis said: "With wooden floors in barns rapidly being replaced by concrete floors and feeding troughs, and with all barns receiving adequate light and air, the type of dairymen resembling the 'Man with the Hoe' has disappeared. Drinking milk in Cincinnati has ceased to be an extra-hazardous occupation, and the municipal supply is no longer like a lottery from which one may draw an attack of typhoid, diphtheria, scarlet fever, septic sore throat, or bovine tuberculosis."

News Notes Of Bristol

Community Happenings of Interest Are Reported by Telegram Correspondent.

BRISTOL, June 9.—The local high school closed Friday, June 2, after a very successful term under the efficient instructions of Prof. E. C. Henderson, principal, and Prof. J. D. Alley, assistant principal. There were no graduations this year.

Fatal Accident.
Homer Tate, a successful farmer and teamster, of Cherry Camp run, was struck on the right ankle by a two inch board while working a few days ago. As a result he is now unable to walk. His injuries did not at first appear to be serious, but the injured ankle gradually became worse, more swollen, more inflamed, more painful and consequently more serious. Medical attention has failed so far to alleviate the excruciating misery in his ankle and he is suffering intense pain.

Resigns Position.
Price E. Montgomery, who has been employed with the Hoffman-Deegan Oil and Gas Company as pumpjack at its leases on Grass run and Big Rock Camp creek, resigned his position the last of the week. He will seek employment with another company soon.

Stork Leaves a Boy.
That famous old bird, the stork, paid a visit to the home of Mr. and Mrs. Clark Morgan on upper Grass run, Tuesday, June 6, and made them a present of a bouncing boy baby. Mother and babe are doing quite nicely and Clark is doing fine, too.

Looks After Business.
J. C. McCall, of Clarksburg, superintendent of the Eureka Pipe Line Company, made a business trip to Marshville Tuesday.

Makes Change.
Some changes have been made by the Southern Oil Company with its leases on Indian run, Grass run and New creek during the last week. It has doubled up the work of its pumpjack, also. The Riley heirs lease, on Indian run, has been put in charge of Charles E. Bennett, who formerly had only the three wells on the Will Tickman lease on the same run, and the Marshall Carter lease, on lower the Southern's New creek pumper, Edith Ash. The former had charge of both the Riley and Carter leases, has been transferred to some other lease. Other oil companies in the immediate vicinity have made no changes.

Prof. West's Coming.
Local young folk—and some that are not young—seem bent and determined to become vocalists of no small note. Some aspire to be great tenors and warble like Caruso; others would rather be baritones and basso like James F. Harrison and William A. Hooper, respectively; while still others, the females, prefer to be prima donnas of the Gershwin-Parrar, Mary Carver and Nellie Melba type—all tickle an ear and wonderful voice. The Intelligencer was recently here to report that Professor L. D. West, of Washington, will arrive here Saturday evening next to teach a third term of singing school at the Methodist Episcopal church on Cherry Camp run. There will be singing at these churches every other night until each has received the twelve lessons of the term.

Passes an Overland.
Walter T. Ritter, a prosperous Grass run farmer, purchased an Overland five passenger touring car from the agency at Salem a few days ago. He is undoubtedly a happy proprietor of the new car, and is sharing with his friends the joy of it.

Funeral Held.
Funeral services were held over the body of Miss Beulah Mae Denison, aged 28 years, daughter of Mr. and Mrs. Montie A. Denison, of Big Rock Camp creek, who passed to that Great Beyond Monday.

Garage Roofs Must Be Spark-Proof

Shingles or ordinary prepared roofings will not do. They are highly inflammable—dangerous! You need a roof upon which sparks drop dead—a roof that is fire-resisting, weatherproof, and wear-proof. We have it. This roofing is

RU-BER-OID
Pronounced "RU" as in RUBY
ROOFING
COSTS MORE—WEARS LONGER

We can heartily recommend RU-BER-OID. Our customers use it and know that it is permanent and economical.

RU-BER-OID is not only fire-resisting, but it affords an all-year, every-sort-of-weather protection, repelling heat, cold and moisture.

RU-BER-OID for outlasts cheap imitations, because its long-wearing qualities are built in. In hundreds of instances RU-BER-OID is still weatherproof after 20 years wear.

The U. S. Court of Appeals has recently enjoined imitations from using the word "Rubberoid" or any similar name as the trade name or brand of their roofing.

We sell the genuine—with the "Ru-bor-oid Man" on the roll, as shown above. We have RU-BER-OID in slate gray and in distinctive Tile Red or Copper Green.

Drop in and see RU-BER-OID when you are in this neighborhood.

Parr Lumber & Planing Mill Co.
All Kinds of Lumber and Builders' Supplies Clarksburg, W. Va.

Beyond Monday at 3:30 o'clock during an operation for gall stones. Wednesday at her home on Big Rock Camp creek. Interment was made in the Baptist cemetery at Marshville. Miss Denison had been ailing for a long time, having previously undergone three operations for appendicitis and gall stones.

Sells Saddle Mare.
Julius C. Matthey, of Indian run, recently sold a fine saddle mare to Edward Williams, of Salem, for a consideration of \$125.

Personals.
Overton Ritter, of Mud Lick, was here a few days the last of the week a guest of his daughter, Mrs. Julia

More Rheumatism Than Ever Before
Clergymen, Lawyers, Brokers, Merchants a Merchants Stricken.
Our old friend Rheumatism is having his inning this year, and a few words of caution from one who knows all about it may not be amiss. Wear rubbers in damp weather; keep your feet dry; drink plenty of lemonade, and avoid strong alcoholic drinks. If rheumatism gets you, or sciatica, and you have sharp twinges, gnawing pain or swollen joints or muscles, you can get rid of all agony in just a few days by taking one-half teaspoonful of Rheuma once a day. All druggists know about Rheuma; it's harmless, yet powerful; cheap, yet sure, and a 50-cent bottle will last a long time. Ask Wells-Haymaker Co. or any druggist.—Advertisement.

Shahan, of Pike street, and his son, M. E. Ritter, of Salem Fork creek. Price E. Montgomery was a business visitor to Salem a few days ago. James W. Marsh, of Grass run, was a guest at the home of Mr. and Mrs. Hiram D. Lynch, at Valley View farm Sunday. Miss Pearl Denison and Mrs. Quintilla Lynch, of rural route No. 1, were shopping at Salem Monday. John Wesley Williams and daughter, Mrs. Minnie Jones, were Salem visitors Thursday. Mrs. Bertha Tate and daughter, Miss Ruby, of Cherry Camp run, were guests at the home of her parents, Mr. and Mrs. Hiram D. Lynch, of rural route one, the first of the week. John R. Denison was a Salem visitor a day or two ago. Sylvester C. Goodwin and son, Wayman D., of Grass run, were Salem business visitors Thursday. Hiram D. Lynch, of rural five delivery one, was transacting business at Clarksburg Friday. Miss Gethreal Spindle, of Cherry Camp run, was shopping in Salem Thursday. William Swiger was calling on Hiram D. Lynch at Valley View farm Sunday.

NEW VESSELS
For Shipping Are Fast Being Completed in the City of London Now.

LONDON, June 9.—The shipbuilding yards of Great Britain are gradually increasing their output of mercantile tonnage, according to reports published in various papers, and in

several instances building berths are being extended, new iron working sheds and engine shops erected, while large new buildings at present utilized for government work are expected to be available for mercantile construction in the near future. Several new vessels are nearing completion and one or two just completed on the Clyde.

Extensive repair work is in progress also in most of the East and South coast yards, while the Belfast yards are said to be preparing for an early resumption of mercantile work. The dilution of labor scheme on the Clyde has already commenced.

CEMENT BLOCKS.
